

Cork County Council and SECAD

ENERGY MANAGEMENT WORKSHOP

for Small Businesses

Date: Thursday, 03 February 2011

Time: 9.00am to 1.00pm

Venue: Midleton Park Hotel, Midleton.

Attendance is FREE

Energy & Cost Saving Opportunities

Small businesses are recognising that there is a new energy future with rising energy costs, making energy efficiency a core strategic priority. Any organisation looking to its future competitiveness is looking at energy efficiency. Those already taking action are seeing the benefits – real cost savings and real environmental gains.

This Workshop will help identify energy use, main energy users and opportunities for energy and cost savings. Other topics that will be discussed include: energy bills, procurement, energy efficiency, renewable energy and financial supports for upgrades.

This event is funded by the EPA National Waste Prevention Programme.
